

Electronic Prescriptions

An electronic prescription is a computer generated prescription sent electronically from your health care provider directly to our pharmacy. Electronic prescriptions are sent using a private, secure and closed network. Electronic prescriptions usually travel immediately to our pharmacy with no need to drop off a paper prescription. The electronic prescription process adds increased patient safety by preventing medication errors. Our pharmacy now accepts electronic prescriptions for controlled substances in addition to most other medications.

Ask your provider to have your prescriptions sent to:

Pharmacy Services

Mission

The mission of the Department of Pharmacy is to deliver premier pharmacy care that promotes patient safety and optimal health care outcomes.

Locations

There are 14 pharmacy locations organized on a centralized and satellite basis. The Main Outpatient, Emergency Department, Inpatient, and Pediatric Pharmacies are centrally located in the hospital. The Clear Creek PX Pharmacy is located within the Clear Creek Post Exchange. There are additional pharmacies located within outlying clinics, both Soldier Centered and Community Based Medical Homes.
